[UOW Pathway Information Sessions](#)

29 May

Use your time wisely and get started on your pathway to UOW. UOW College offers pathway courses that can guarantee entry into a range of bachelor programs, some with direct entry into the second year. Please join us for our upcoming online info session to find out more about our range of courses, scholarships and how to apply. If you have already applied or received an offer, please come along and find out more about what to expect when classes commence, student support and a previous college students experience. Staff will be available on the night to answer your questions.

[Upcoming Western Sydney Webinars](#)

Watch our webinars covering a range of individual study areas. Want to know more about careers and degrees in the fields of most interest to you? Not sure what subjects to select for your senior years? Let us support you to make informed decisions and discover more about why you should study at Western.

- Monday 13 May @ 3:30PM | Discover Western – For Educators – HSC True Reward, Pathways & Early Offers
- Tuesday 14 May @ 7PM | Discover Western – For Parents: Your Role and How You Can Help Guide Them to University
- Tuesday 11 June @ 5PM | Discover Western – Pathways, Alternative Entry and Early Offers

[Western Sydney University – Unlocking Careers in Sport and Health](#)

17 May

This on campus event for Aboriginal and Torres Strait Islander High School students in years 9-12, raises knowledge and aspiration for Careers in Sport and Health. Students will participate in their choice of practical workshops, a Q&A Yarn Up with Indigenous industry professionals to gain insights into their work, education journey and careers. All attendees will receive a free Western Sports Pack.

[University of Sydney – Year 12 Information Evening](#)

22 May

Are you ready to take the next step?

Join us for an exclusive information evening for Year 12 students and their parents/carers to answer all your questions about joining the vibrant Sydney University community next year.

[University of Sydney Webinar – Medicine at Sydney](#)

8 May

Studying medicine at the University of Sydney ensures that you will be fully equipped with the leadership capabilities, clinical skills and human understanding required to make a genuine difference to the lives of individuals and communities across Australia and the rest of the world. Don't miss this opportunity to learn about the flexible and rewarding double degrees in medicine as well as how to best prepare for the admissions process at Sydney.

Sydney College of the Arts Portfolio Evening

28 May

Don't miss the opportunity to join us at the Sydney College of the Arts Portfolio Evening, in-person, for tailored feedback and valuable insights to elevate your portfolio to support your application. Your portfolio is a key part of your application to study a Bachelor of Visual Arts or Bachelor of Visual Arts and Bachelor of Advanced Studies at the University of Sydney.

As part of the Portfolio Evening, you'll be able to speak with our experienced staff to:

- gain personalised, one-on-one feedback and advice on your current portfolio and how to enhance your submission
- receive information about our degrees, specialised facilities, and student opportunities inside and outside the classroom.

University of Sydney Webinar – The M in STEM: Where maths can take you!

29 May

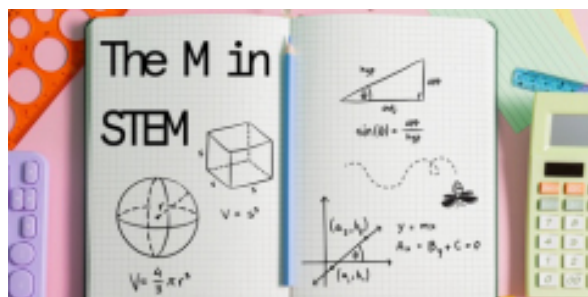

Find out how your high school maths topics directly relate to career paths in science.

Everybody knows that science, technology and engineering will continue to shape the world we live in. They will be needed to solve the problems current and future generations will face. But how does mathematics fit in? Why do you have to learn calculus? What does probability have to do with anything? And is there really a reason for understanding statistics now that computers do everything for us?

If you are in Years 9–12, looking after someone in Years 9–12 or teaching a class of Years 9–12 students, come along to discover how the maths learnt in the classroom is used in everything from physics to medicine.

This 2 hour event will begin with you hearing from current pioneers in STEM as they detail how mathematics has shaped their careers. After which, there will be a networking Q&A so you can receive tailored advice and build connections with your future peers and potential colleagues.

Not sure which level of maths is needed for your chosen degree? Or do you have a major you want to take, but no idea what sort of career it could lead to? This is your chance to have all your questions answered!

University of Sydney – Music Portfolio Evening

17 May

Make your application stand out and join us at our Music Portfolio Evening on Friday 17 May. We encourage you to take this opportunity to receive tailored advice from our academic staff and gain valuable insights to elevate your portfolio, which is a crucial element of your application to study a Bachelor of Music (Composition), Bachelor of Music and Bachelor of Advanced Studies (Composition), Bachelor of Music Composition for Creative Industries Program, and Bachelor of Music Contemporary Music Practice Program at the Sydney Conservatorium of Music. At this event, you'll receive personalised feedback on your music portfolio, speak directly with our staff, tour our iconic campus and learn about our courses and submission processes. With registration you will also receive TWO free tickets* to the evening's Wind Symphony performance conducted by Ingrid Martin.

University of Sydney – Articulate Economics – Exploring Australia's Balance of Payments and Trade Dynamics in a Global Context

23 May

In this talk, Dr IKM Mokhtarul Wadud will discuss Australia's balance of payments (BOP) in the context of open economy macroeconomics. The talk will highlight how Australia's BOP has evolved over recent decades, with special emphasis on how the dynamics of comparative advantage in trade of certain products and associated changes in foreign investment have shaped the Australian BOP and the Australian economy over the years. The role of the mining boom and the Australian economy's growth trajectory in the post-GFC period will also be highlighted. Dr Wadud will also draw the implications of such dynamics for Australia's BOP components namely, the current, capital and financial accounts, with special reference to Australia's prospect as a trading nation.

Meet the University of Sydney – Dubbo

16 May

Join us for an information evening to find out all you need to know about the University of Sydney!

Learn about our Regional and Remote Entry Scheme and MySydney Scheme.

The session will also cover information about courses, admission requirements, entry schemes/pathways, fees, and scholarships, as well as the type of support available on campus. Uni students and alumni from Regional NSW will share stories, tips on moving away from home and advice about their journey to university and beyond.

[Meet the University of Sydney – Orange](#)

23 May

Join us for an information evening to find out all you need to know about the University of Sydney!

Learn about our Regional and Remote Entry Scheme and MySydney Scheme.

The session will also cover information about courses, admission requirements, entry schemes/pathways, fees, and scholarships, as well as the type of support available on campus. Uni students and alumni from Regional NSW will share stories, tips on moving away from home and advice about their journey to university and beyond.

[University of Sydney Webinar – Life of a veterinarian](#)

15 May

Are you keen to make a difference to the health, welfare and conservation of animals all around the world? Then, look no further; home to the no. 1 veterinary school in Australia, and no. 23 in the world, the University of Sydney leads in veterinary education, animal science and research, fostering a vibrant community of scholars and practitioners. Join this session to discover what an average day for a veterinarian is like and how you can pursue studies in veterinary medicine as well as the many research and placement opportunities that await you.

[UTS Bachelor of Computing Science – Industry Degree Academy \(IDeA\)](#)

The Industry Degree Academy (IDeA) is a three year program, available only at UTS. Students work at some of Australia's leading companies while they study. The program is codesigned with industry partners, so students graduate with the skills and experience employers seek, along with industry experience. IDeA enables students and employers to actively contribute to learning outcomes via portfolios, industry certifications, and training, as well as gaining strong technical skills and a full cybersecurity or computing science qualification.

[Bachelor of Accounting \(BAcc\) at UTS Information Evening](#)

9 May

If you are a high-achieving school leaver and believe you could be one of Australia's future business leaders, then our Bachelor of Accounting and cooperative education scholarship program has been designed just for you. The Bachelor of Accounting provides you with a multi-skilled accounting degree with a strong emphasis on both accounting and financial management, both essential business tools.

[ANU Early Entry Application Q&A](#)

7 May

An opportunity to get your last minute questions about our early entry application answered by staff from admissions and accommodation before applications close on 13 May 2024. Hear answers to commonly asked questions and come prepared with any questions you might have!

[Applications open for Doctor of Medicine at CSU](#)

Applications Close 27 September

With our Doctor of Medicine you can study regionally and be at the cutting edge of the future of medicine in Australia. The continuing shortage of doctors in rural and remote areas is central to Australia's rural health crisis. You can help address this regional shortage by studying our Joint Program in Medicine, in partnership with Western Sydney University.

[Charles Sturt University Health and Community Services Explore Day](#)

14 May

Are you in Year 10, 11 or 12 and want a health career that makes a real difference? Come to our Community Services and Health Explore Day! Join leading industry and education providers for the ultimate health event. Explore our range of diverse community services and health courses. Find out about careers from organisations and institutions across New South Wales. And learn from industry experts from the Central West and beyond.

[CSU Dubbo Experience Day](#)

21 May

Get hands-on at our Dubbo campus, where you'll get to take a closer look at different course areas, chat with current students and lecturers, and get one-on-one advice from experienced professionals.

[Souther Cross University at Primex Field Days](#)

16 May

Enjoy local produce, food, and drink alongside chefs, growers and food lovers at this iconic Northern Rivers field day event. With regional Australia's largest showcase of machinery, equipment, and innovation that gives the entire family a true taste of Australian agriculture and primary industry production.

[Reminder – University of Newcastle JMP Info Session Webinar](#)

8 May

The Bachelor of Medical Science and Doctor of Medicine (The JMP) is an innovative five-year degree delivered jointly with the University of New England and supported by Hunter New England Local Health District and Central Coast Local Health District. Join us for an info session to hear from Joint Medical Program academics and current students about the program, admission requirements and much more.

[TAFE to Uni Webinar](#)

22 May

Interested in taking your studies to the next level? Join us online to learn why TAFE and vocational qualifications are an excellent and popular pathway into the University of Newcastle.

Tune in to meet our admissions staff and student ambassadors. You will learn about what it's like studying at our University, TAFE and other vocational qualifications entry pathways, how to apply, scholarships, jobs on campus, support and services and more!

Hear from our student ambassadors as they share their experiences as TAFE to university pathway students. They're excited to meet you and answer all of your questions. Don't miss this opportunity!

[University of Newcastle Y10 Subject Selection Webinar](#)

29 May

Our student ambassadors will share key subject selection information and share their stories and experiences with subject selection and transition to University studies.

[UNSW Undergraduate Student Guide 2025](#)

Our 2025 Domestic Undergraduate Student guide is live!

Get the details on everything you need to know about UNSW Sydney, including:

- Our degrees – Including entry requirements, study areas, double degree options and more.
- The UNSW experience – Discover the career opportunities available at UNSW.
- The journey to uni – Learn about our admissions pathways, scholarships, adjustment factors and more.

[UNSW Year 10 Info Evenings: Subject Selection](#)

9 & 14

May Get advice and information that's specially tailored for Year 10 students, that will help you navigate the HSC subject selection process, explain how UNSW admissions and scholarship applications work, and give you an insight into transitioning into university life so that you can get a head start on planning your future. Parents and teachers of Year 10 students are invited to join the evening as well as participate in the live Q&A session.

UNSW Law Admissions Test (LAT) Information Evening

15 May

Get all of your questions answered at our online 2024 LAT Information Evening. The Law Admission Test (LAT) is an entry requirement for all undergraduate law double degrees at UNSW. We'll cover how the LAT has worked for entry in the past, provide detailed program and faculty information, as well as key LAT dates for the year ahead. We'll also be joined by some current students to answer general questions about the LAT and studying law at UNSW. Our LAT Information Evening is for Year 11 and 12 students and their parents, careers advisers and students currently studying at another university who are hoping to transfer to UNSW Bachelor of Laws in 2025.

UNSW Arts, Design & Architecture Information Evening

22 May

Are you interested in a career in Arts, Design & Architecture? Join a faculty ranked top 50 globally and 4th in Australia, with two Schools that are top 40 in the world*

Join us online where you will hear from our Dean, Professor Claire Annesley, as well as an interview with current students, and get all of your UNSW Arts, Design & Architecture questions answered during a Q&A panel. Learn about our degrees, careers, admission pathways, scholarships and more!

UNSW Science Information Evening

29 May

No matter what your passion is, you'll find a degree to launch your career with UNSW Science. From Aviation to Psychology, Mathematics to Environmental Sciences, we're creating the Science Leaders of tomorrow.

UNSW's Science Information Evening is for domestic high school students who are interested in pursuing an undergraduate degree in Science. Join us to hear about UNSW Science and what makes us different. We will provide information about our degree offerings, work integrated learning opportunities, industry partnerships, STEM career opportunities and much more.

TAFE

[TAFE to Uni Webinar](#)

22 May

Interested in taking your studies to the next level? Join us online to learn why TAFE and vocational qualifications are an excellent and popular pathway into the University of Newcastle.

Tune in to meet our admissions staff and student ambassadors. You will learn about what it's like studying at our University, TAFE and other vocational qualifications entry pathways, how to apply, scholarships, jobs on campus, support and services and more!

Hear from our student ambassadors as they share their experiences as TAFE to university pathway students. They're excited to meet you and answer all of your questions. Don't miss this opportunity!

You can do this in any order and our Student Enrolment Team can guide you through the process if you require assistance. Simply call 1300 302 867 or email newstudents@acpe.edu.au

[AFTRS Introduction to VFX and 3D Animation Short Course](#)

Enrolment Closes 6 May

This course aims to demystify the visual effects and animation industry by providing a core understanding of the workflows, processes and tasks involved in contemporary digital visual effects, animation and post-production.

Conducted by industry leader and creative professional, Alexander Hoetzer, you will be prepared to engage with a wide range of creative industries, and in a wide range of tasks. Gain insider perspectives on professional creative processes which will help close knowledge gaps in foundational topics and provide an overall perspective of visual effects and animation workflows.

[AFTRS Introduction to Volume Studio Basics Short Course](#)

Enrolments Close 14 May

Developed with the support of the Universal Studio Group and Matchbox Pictures, this lecture and seminar format session is for all those interested in Virtual Production who have not yet had the opportunity to explore the use of an LED Volume. If you are a screen practitioner, Producer, Cinematographer, Production Designer, Director, First Assistant Director or Visual Effects Artist, this is the perfect beginners course and will provide you with a solid foundation from which you can continue to learn. You do not need to have any on-set or Visual Effects (VFX) experience to benefit from Volume Studio Basics.

[AFTRS Introduction to Documentary Short Course](#)

Enrolment Closes 14 May

Have an idea for a documentary but aren't sure where to start? Interested to learn more about the genre, including factual TV/documentary series, feature documentary and online docs? This 100% online course will give you a great introduction and show you how to start moving your documentary ideas into production.

[AIBI Higher Education Scholarships in Cybersecurity and Business Degrees](#)

Want to get a headstart on your university-level study?

[AIBI Higher Education](#) is thrilled to announce two scholarship opportunities for our March 2025 intake.

[Opportunity & Inclusion Scholarship](#) (worth over \$10,000): This scholarship is designed to support students from diverse backgrounds, who have overcome obstacles and demonstrated resilience. And here's the best part – it's not based on your ATAR! Simply submit your Year 11 report and show us your potential.

The scholarship is available for the

[Bachelor of Cyber Security](#),

[Bachelor of Business](#) and

[Bachelor of Enterprise Management Systems](#).

[Cyber Security Talent Scholarship](#) (worth over \$10,000):

Are you intrigued by the world of cyber security? This exclusive scholarship

can help you dive into cryptography, ethical hacking, network security and other exciting areas. And guess what? Your ATAR doesn't define your eligibility! We're looking for individuals with a genuine passion for cyber security. Just provide your Year 11 report and let your achievements speak for themselves.

This scholarship is available for the [Bachelor of Cyber Security](#).

Take the first step towards your future with a generous AIBI HE scholarship.

[The Hotel School Open Day – Register Now](#)

22 June

Join us for a day filled with excitement and exploration at our University Open Campus, where you'll get to experience life as a student at The Hotel School. Here's what awaits you:

- Experience studying at THS firsthand by participating in a special Masterclass
- Meet The Hotel School team and explore our diverse range of courses and application process
- Discuss career opportunities with the Work Integrated Learning team
- Connect with our current students and fellow attendees
- Enjoy light refreshments

[Reminder – JMC Academy Open Day](#)

11 May

Come and see why JMC Academy is Australia's Leading tertiary Creative Industries provider.

- Tour our world-class facilities and tech
- Explore your creative future in our hands-on workshops
- Meet our current students and industry expert lecturers
- Check out live student performances
- See creativity come to life with course demonstrations
- Build your creative network
- Speak to student admissions

[AIE Open Day](#)

25 May

Discover the courses designed to get you started in game development, 3D animation, film and visual effects at the AIE Open Day on Sat 18 November 2023. This event will be held at AIE Campuses in Sydney, Melbourne, Canberra and Adelaide from 10am to 3pm.

AIE's Open Day is a great opportunity to meet our teachers, staff and students. The day will cover everything you need to know about the:

- careers in games and VFX that we train students for;
- studios and industries that we work with;
- courses we offer – from beginners to professional mastery, and;
- the software, skills and knowledge we teach.

AIE's Open Day will also include presentations on entry requirements and how to apply. Find out how AIE can get you into a creative career.

General

[How much do you know about STEM + design & construction careers?](#)

Passionate about building and designing the cities of the future? STEM + design & construction could be a winning study and career pathway for you! Suss out your knowledge of roles in this field with our quiz below. You might even discover a new type of job you hadn't considered before!

[Which cyber security job is for you?](#)

With so many jobs in the cyber security sector, it's important to find a compatible fit. In our increasingly connected and digital world, cyber security is everyone's business. If you're wondering where you might land a job after skilling up in this exciting and in-demand sector, you might be surprised how many opportunities there are!

[Destination Australia Scholarships](#)

Destination Australia Scholarships are funded by the Commonwealth Government, and are designed to attract and support students who choose to live and study in regional communities. Each Scholarship provides \$15,000* per student per year of course enrolment to support costs for living and studying in regional Australia. Scholarships are provided for specific courses and locations only, as shown below, and require full time class attendance for a minimum of 20 hours per week.

[How to become a Chartered Accountant](#)

Becoming a Chartered Accountant (CA) could set you up to thrive in business in different parts of the world. It's a highly regarded professional qualification with international recognition. CAs can work in a wide range of exciting and challenging careers. If you'd like to join their ranks, here are the steps:

[What is forensic science really like?](#)

What's it really like to have that dream job you've been eyeing off? We've found out for you and are busting myths about some hard-to-pin-down careers in STEM. Professor Shari Forbes dishes the decomposing dirt on forensic science, and it's nothing like CSI.

[Beyond Blue – Young people \(12-25\)](#)

Going through tough times? Stress, anxiety and feeling down can affect anyone, and happens to a lot of us at some point in our lives.

We all have good days and bad days. However, if you're feeling sad, down or anxious and these feelings have started to affect your everyday life, then it's important to find out what's going on and how you can manage it. Over 75% of mental health issues occur before the age of 25,¹ while suicide continues to cause the largest loss of life of young people in Australia. It's never too early to start looking after your mental health and wellbeing so you can be the best version of yourself.

[Things to consider before studying psychology](#)

Psychology is a field where professionalism is of utmost importance. Psychologists need to participate in ethical conduct, which includes all forms of communication with clients. Skills that are essential in the practice of psychology include strong listening and communication skills, personal integrity, empathy and self-awareness. During the course of practice, a psychologist is expected to encounter clients who have a range of comorbidities and may require an interdisciplinary approach. This can mean liaising with a range of other health professionals. Psychologist Rebecca Ray also discusses how to treat clients with trauma without becoming traumatised yourself. It can be challenging to stay composed in session with clients, and the practice of mindfulness can assist with this according to clinical psychologist Samantha Clarke. Another clinical psychologist Dr Tara Hickey has also incorporated mindfulness into her practice with clients, as well as for her own wellbeing.

[Closing Soon – Professional Business Cadetships Australia Companies](#)

Closes 24 May

Over the last sixteen years, Professional Cadetships Australia has provided Year 12 students with the opportunity to apply for a cadetship with leading companies in the financial services industry, including UBS, Barrenjoey Capital Partners, Macquarie Group, Bank of America Merrill Lynch, BNP Paribas, Westpac, QBE and Zurich. In 2023, the Business Cadetships Program offers exciting cadetship opportunities in a range of business areas at UBS, Barrenjoey Capital Partners and Macquarie Group. As a Business Cadet, you combine university study in Sydney with paid work in Sydney at UBS, at Barrenjoey Capital Partners, or at Macquarie Group. The Business Cadetships Program allows you to choose the university where you will study and allows you latitude in your choice of degree program. Watch this space for information about the Business Cadetships in Melbourne Program.

What Matters? Writing Competition

Closes 17

May Inspired by Gough Whitlam's commitment to involving young people in shaping Australia's future, the What Matters? writing competition is currently open to school students in years 5 to 12 from Australia. Responding to the simple question 'what matters?', entrants are free to express their views on any matter they care about. Part writing exercise, part civics and citizenship activity, What Matters? is the perfect opportunity to empower students to raise their voices on issues that are important to them and know that their perspectives are valuable, no matter their age, background or viewpoint. Entries can be fiction, non-fiction, poetry or prose of up to 600 words, and submitted online.

Creative Tech Careers

If your favourite subject at school is art or English, or if you're more likely to be found sketching in your spare time than coding, then the idea of a career in the tech sector might not be on your radar right now. But we're here to tell you that it actually should be!

Apps and websites don't just need to work – they need to be visually appealing and easy and enjoyable to use. Making that happen is generally the job of tech + creativity pros like user experience (UX) and user interface (UI) designers, who often come to the tech sector via a graphic design study pathway, combining their design knowhow with tech skills.

STEM + X Webinar Series: Maths & Data

29 May

Maths is the language of science and engineering. Whether you're working on developing new technology, conducting research, or solving problems in any field, you'll need a strong foundation in maths to be able to understand and work with complex concepts and solve problems.

Join this free webinar to explore how you can combine a study in Maths with your 'X', which is your passion, another area or a big goal.

Plan Your Own Enterprise Competition

Closes 17 September

Competition for a creative business idea and plan for the establishment of a business. The competition is open to all full-time secondary school students enrolled in a registered secondary school in Australia at the time of submission of their entry. Business and Financial Planning enables students to see the interconnectedness in business operations allowing them to have an in-depth understanding of business functions.

[Animal Logic Work Experience Week](#)

Applications Close 6 May

Have you ever been interested to learn how we make amazing films? You're in luck, as Animal Logic is excited to announce our next 'Work Experience Week' in May 2024!

Work Experience Week is aimed year 10, year 11 and year 12 students who are interested in working in a feature animation studio, as we provide the chance to for students to learn about the roles and responsibilities related to a career in the Animation & Visual Effects workplace. Students will be involved in a combination of lectures, experimental artistic, technical learning and presentation skills, all by some of the best artists/technicians in the industry.

We have 10 places available and we will be looking for students who we feel will be able to best benefit from this opportunity.

[2044 UNSW Bragg Student Science Prize for Science Writing](#)

Closes 23 August

Working together to protect the environment

In 800 words, describe some great community interaction with conservation and biodiversity. Your essay could cover:

- What is the best citizen science project – how does it work and how is it used? Examples include Frog ID, Birdwatch
- How is your school or local community involved in conservation?
- How are Indigenous values inherent in conservation practices?
- How do scientists work with communities in conservation research?
